Caffè Bello®
COFFEE ARTISTS

Prepared exclusively for CAFFÈ BELLO · WooCommerce experience add-on

Spin to Win Gift

After checkout, your customers spin a weighted prize wheel to win a real gift you define—a memorable moment that rewards loyalty and highlights your products.

What your customers experience

- Interactive wheel on checkout and on the order thank-you page (theme-friendly hooks).
- Weighted segments—rarer prizes feel special, common wins keep engagement high.
- Real product gifts or friendly “almost” messages; winners claim securely per order.
- Polished popup styling and celebration feedback that you can recolor per campaign.

What you control in WordPress

- Multiple wheels: different cart totals, schedules, time zones, and priorities.
- Rules: minimum spend, item count, category, first order vs. returning, coupon, boost rules.
- Per-wheel themes (colors) to match CAFFÈ BELLO’s teal and gold identity.
- Built-in analytics plus export/import of settings for backup or staging sites.

Why it fits a specialty coffee brand

Use the wheel to spotlight new roasts, accessories, or limited releases—without juggling one-off coupon codes. Surprise first-time buyers, thank returning guests, and keep the post-purchase moment on-brand.

Technical requirements

WordPress 6.2 or newer · WooCommerce 7.0 or newer · PHP 8.1 or newer · Plugin: Spin to Win Gift v2.1.3
